RE: Submission of Substitute Specification and
Drawings in Application No.: 10/796,848

Dear Patent Examiner,

Enclosed, please find a "Transmittal Form" with two documents attached, explaining your office's requirement that I submit a typed specification and non-embedded drawings to substitute what was previously filed (on 3/9/04) in the above-stated application.

Please note that one (1) additional claim has been added for a total of four (4) claims. If a fee is required for this additional claim, please respond accordingly and I will immediately remit such payment.

Also, please note that the following corrections are required as to the information

you have recorded as to my application:

1. My address should list the town of "Merritt Island" not "Merritt Island"
2. The invention title should be listed as "Electronically Amplified Stethoscope [E.A.S.] (with optional recording and data transfer ~~capability~~ capabilities)"

Not: "Electronically Amplified Stethoscope [E.A.S.] (with optional recoding and data transfer capability)"

So please change in the title "Stethoscope" to "Stethoscope", change "recoding" to "recording" and change "capability" to "capabilities".

Please forward a corrected confirmation sheet noting these changes and alerting us to your having filed these new submissions.

Also please scan these and provide a publication date.

I thank you in advance for your assistance
